Nepal: The Eyes Of The Buddha

<u>with Atum & Emmanuel</u> Sept 18th – Sept 30th 2023 (Price \$2150)

Our pilgrimage will take us to the top of the world and into the heart of an enchanting, complex, resilient country. As pilgrims, we will journey together through the mandala city of Kathmandu's ancient alleyways, to the natural beauty of villages in the foothills of the Himalayas, to the majestic mountain lakeside city of Pokhara.

Religion is deeply ingrained into the Nepalese way of living. Together we will visit Buddhist pilgrimage sites, monasteries and Hindu temples that are a living transmission of a sacred place and culture. Nepal is home to one of the oldest forms of Buddhism. It is where Buddha was born and where Guru Rinpoche found enlightenment. It was Nepal that brought Buddhism to Tibet and Bhutan. Hinduism predates Buddhism and remains vividly alive, preserved and untouched by the Mughal invasion of India and subsequent upheavals. These two great religions and ways of life are interwoven and live side by side. Sacred places are often marked by temples or monuments to both religions and deities from both religions are honored and incarnated into each other's religion. Temples, monasteries, stupas, monuments, and daily rituals fill Nepal from the streets to the mountaintops, and continue to be the center of life. Come join us on this unique magical journey.

The Vision For Our Pilgrimage:

<u>Atum's vision</u>: With deep joy I heard the call to lead a return pilgrimage to Nepal. Having seen the resilience and beauty of the people of Nepal after their devastating earthquake I was filled with a vibrant love for the country. This astounding place holds such opposites for me. Kathmandu is where I met his Holiness Dilgo Khyentse Rinpoche. The encounter in a private meeting profoundly changed my life and Rinpoche has never left me. The Tibetan Shechen monastery that his Holiness built in Katmandu is often referred to as "The Jewel of Nepal". Gifted with a vivid spirit, Nepal also reminds us of the suffering and exploitation present in Third World countries. I remember being in the airport, filled with shock at the scene of hundreds upon hundreds of young Nepalese men leaving the country to work so their families can survive. Some years ago as I was leaving Jerusalem during a very difficult time for the city, a friend said something that is written on my heart, "Don't forget us." Our Nepal journey is centered on showing the Nepalese people that they are not forgotten and that we treasure the profound beauty of their culture.

Emmanuel's vision: Nepal has played a prominent role in my life as a traveling pilgrim and in my spiritual formation. My love for Nepal is made from the experience of many forms. I've experienced a Vipassana meditation course and a one-month meditation retreat in the hills of the Kopan Monastery. I've taught English in a class of 176 students in a village school, I've spent Christmas trekking the Annapurna Circuit, and was in Nepal during the deadly earthquake of 2015. All of this has brought me a much deeper understanding of what it means to be human and what the journey through life is like for so many people.

For me, this pilgrimage is about being able to share the beauty, the experience of life, and the greater consciousness that comes with being in this life-changing country with fellow pilgrims in a meaningful way.

- There will also be other opportunities to donate to projects or services if you are interested in doing so.
- We want traveling to be a life-changing experience for people. The ability to travel is a blessing that many people around the world are unable to experience.
