About the program:

"Over the last several months we have become profoundly aware of the need for community. As we look toward the future there will be an ever greater need to hold the center and stand together. Peer Spiritual Guidance between Soul Friends can provide a refuge and a foundation during these difficult times of global transition.

This workshop will explore 5 dimensions of the Soul Friend's Model:

- 1. Creating and maintaining the Sacred Container for Spiritual Guidance.*
- 2. Clearing the Personal Heart of impressions and opening into the Deep Heart.*
- 3. Letting go of Ego drama and seeing from the Soul's perspective.*
- 4. Deep listening to the Soul's Call as it seeks to unfold and manifest*
- 5. Affirming one's Center and discerning one's way.*

Teachings and practices from various traditions will be integrated into the above 5 step process."
